

Mentor Liaisons: The Mentor Liaison role began in January 2020, as a directive from the CFL Board of Directors, to ensure our volunteer mentors felt supported, confident, and equipped to succeed in their role.

Mentor liaisons are experienced volunteer mentors who are available to assist mentors with any questions or concerns they may have throughout their mentoring journey. They serve as a support system, providing guidance and resources to help mentors navigate their roles, and ensure a positive experience for both the mentor and the mentee.

For first-year mentors, the mentor liaison is especially helpful in answering questions about the mentoring process, offering advice on how to effectively engage with students, helping with their first high-school visit, and addressing any challenges that may arise during the mentoring relationship. Don't hesitate to reach out for help!

Important Resources:

Mentor Toolkit: The Mentor Toolkit is a comprehensive resource to help you navigate your role, with helpful tips, activities, and tools to support your mentee's development. **Year at a Glance** and **Hubs** are great resources as well. Knowing what your students are doing in the program can help with more meaningful conversations.

We encourage you to make the most of these resources to ensure the best experience for both you and your mentee.

Thank you for your dedication to the program and the students we serve.
